SUDHANSHU CHOUHAN

Pune, Maharashtra | +91 7000393193 | sudhanshuchouhan306@gmail.com | github.com/Sudhanshu22222

PROFESSIONAL SUMMARY

Cybersecurity-focused MCA student with a BCA in Cybersecurity and hands-on experience in Java, Python, SQL, and networking, backed by IBM and university-authorized certifications. Experienced in contributing to a live client project and building Smart Wardrobe, an AI-powered outfit recommendation platform. Seeking entry-level opportunities in cybersecurity, software development, or IT.

EDUCATION

Master of Computer Applications (MCA) — Cyber Security *MIT ADT University | Expected 2027*

Bachelor of Computer Applications (BCA) — Cyber Security *Parul University | 2025*
CGPA: 7.91 / 10

Senior Secondary (XII), Science (PCB) — CBSE *Kendriya Vidyalaya, Barwani, MP | 2022*
Aggregate: 69.6%

Secondary (X) — CBSE *Kendriya Vidyalaya, Barwani, MP | 2020*
Aggregate: 66.8%

WORK EXPERIENCE

Summer Internship Trainee — Consultancy Unit, FITCS Department *Parul University | Dec 2024 – Apr 2025 (4 months)*

- Contributed to the development and testing of a live client project for Phoneworld (SR Mart).
- Assisted in implementing web application features and backend functionality as part of a full-stack development team.
- Collaborated with student developers and faculty/industry mentors to understand requirements and deliver project tasks.
- Participated in software testing, debugging, and application workflow validation.
- Gained practical experience working with client requirements and real-world software development processes.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript, SQL, C/C++ (fundamentals)
Web Development: React.js, Node.js, Express.js, Tailwind CSS, REST APIs, JWT Authentication
Cybersecurity: Security fundamentals, common cyberattack vectors, security tools, network security basics
Databases: SQL, MongoDB
AI/ML: Python (FastAPI, OpenCV), rule-based recommendation systems
Tools & Platforms: Git, GitHub, VS Code, Cloudinary

PROJECTS

Smart Wardrobe — AI-Powered Outfit Recommendation Platform

Technologies: *React.js, Node.js, Express.js, MongoDB, Python (FastAPI, OpenCV), Tailwind CSS, JWT, Cloudinary*

- Built a full-stack web application enabling users to upload and catalog clothing items and receive AI-generated outfit recommendations based on color, style, occasion, and season.
- Developed the frontend with React.js and Tailwind CSS, delivering a responsive UI with protected routes via JWT authentication.
- Built a REST API backend with Node.js and Express.js, and designed the MongoDB schema for user accounts and wardrobe data.
- Integrated a Python FastAPI microservice using OpenCV and a rule-based recommendation engine to generate outfit suggestions.
- Implemented secure authentication (JWT, bcrypt password hashing) and image uploads via Cloudinary.

CERTIFICATIONS

- Introduction to Cybersecurity Essentials — IBM (Coursera), Nov 2025
- Introduction to Cybersecurity Tools & Cyberattacks — IBM (Coursera), May 2026
- Introduction to Networking and Storage — IBM (Coursera), Nov 2025
- SQL for Data Science — University of California, Davis (Coursera), Dec 2025
- Python Data Structures — University of Michigan (Coursera), Nov 2025
- Introduction to Java — LearnQuest (Coursera), May 2026
